

OMNI 3740

BIG BRAIN. SMALL FOOTPRINT. UNBEATABLE VALUE.

THE VERIFONE OMNI 3740 terminal packs performance, convenience, and an exceptional range of payment capabilities into an ergonomic “hand-over” device that can be easily passed to customers for PIN entry. Compact, all-in-one design combines a mag-stripe reader, internal PIN pad, and quiet, fast thermal printer. This makes the terminal easy to install and keeps your countertop clutter-free. And because it runs VeriFone’s Verix multi-application architecture, you can support more than just electronic payment transactions. Value-added applications like pre-paid phone cards, loyalty programs, gift cards and age verification can help improve customer service. In addition, a user-friendly ATM-style interface and large backlit display simplify clerk training and minimize costly errors. The result is an unbeatable value — today and tomorrow.
